

50001 Ready Canada Self-attestation Form

Project name:

Project location (City, Province):

Project type:

Project scope:

Organization name

(may be the same as Project name above):

This document is for energy management teams using the 50001 Ready Navigator tool to attest to Natural Resources Canada that they have successfully implemented a 50001 Ready energy management system. This document must be signed by an energy management representative with the responsibility and authority to make this attestation and an executive management representative.

The undersigned hereby declare that the energy management team for the facility named above has completed all 25 tasks in the Navigator tool, including energy performance calculations, and is continuing to incorporate energy management into its everyday organizational practices.

PRIVACY ACT STATEMENT & AUTHORITY

The facility's project account contact name and work email address, that is entered into the Navigator tool, as well as the facility's energy data required when Canadian users apply for 50001 Ready Canada recognition, is collected by Natural Resources Canada under the authority of sections 21 to 24 of the *Energy Efficiency Act*. It is not shared with third parties, and is subject to the Canadian federal *Privacy Act* and the *Access to Information Act*.

PURPOSE

The information contained on this form is used for administering the 50001 Ready Canada recognition program.

SHARING OF INFORMATION

It is voluntary that you provide the requested information. If the information is not provided, you may still access the 50001 Navigator tool and utilize the templates and steps. However, if you wish to track your progress or apply to NRCan for 50001 Ready Canada recognition, the information must be provided.
